

George Walter Appleton

July 13, 1948 - June 23, 2022

George Appleton, 73, of Petaluma, CA, passed away on June 23, 2022 from congestive heart failure.

He went to Joplin High School, Joplin Missouri, where he was active in the National Forensic League (speech & debate).

He worked as a computer instructor to disadvantaged children, and at the Petaluma United Methodist Church, and lived in Petaluma California. He loved to backpack and go camping in the Sierras, loved animals, and liked cooking a good pot roast.

When he became legally blind, it did not stop him. At any given day you'd see him with a backpack, hat and walking stick, using the public transportation around town. He'd bring home treats and toys for the house cat. In his final weeks he was planning a new camping trip in the High Sierras.

George never married and no children. Memorial services will be private among friends.
